BOB JONES COLLEGE CREED

I believe in the inspiration of the Bible, both the Old and New Testaments; the creation of man by the direct act of God; the incarnation and virgin birth of our Lord and Savior, Jesus Christ; His identification as the Son of God; His vicarious atonement for the sins of mankind by the shedding of His blood on the cross; the resurrection of His body from the tomb; His power to save men from sin; the new birth through the regeneration by the Holy Spirit; and the gift of eternal life by the grace of God.

BOB JONES COLLEGE

is determined that no college shall excel it in the thoroughness of its scholastic work; and, God helping it, it endeavors to excel all other colleges in the thoroughness of its Christian training.

Whatever educational problem a student may have, Bob Jones College is in position to solve that problem, at least through the sophomore year. In most cases, the college can solve a student's problem beyond the sophomore year.

PERSONAL WORD FROM THE PRESIDENT

"America's most unusual college" begins its sixteenth session on September 9, 1942. Bob Jones College is located in the beautiful Tennessee Valley section of the South in the center of one of the most progressive and rapidly developing areas in the entire nation. Cleveland, a beautiful city with a population of 12,000, lies in the shadows of the foothills of the great Smokies, and within a few minutes' drive of Chattanooga, a city of historic battlegrounds. Within a few hours' drive through a countryside of great interest and scenic beauty are Knoxville, Birmingham, Atlanta, and Asheville. Located amid the charm and beauty of the Old South, Bob Jones College is the most cosmopolitan of institutions. With a student body coming from all sections of America and a number of foreign countries, it is not typical of any section of our great country, but it typifies rather all that is finest in the life and customs and ideals of America.

Bob Jones College has a spirit all its own, combining an atmosphere of culture without cold formality, of youthful enthusiasm without rowdiness, and of scholarship without "mustiness." With a modern plant—ten new buildings having been completed in the last eight years—Bob Jones College has a spirit and personality more important than the mere physical equipment, as fine as its equipment is.

As an institution we believe in denominational co-operation without organic union. We believe in the right of every Christian to interpret the Bible as he may be led by the Holy Spirit, but we deny the right of any one to call himself a Christian and question the authority of the Bible. Religiously, our testimony is: "Whatever the Bible says is true." Every teacher in the college signs our orthodox creed once each year. We have proved in our institution that it is possible in the present day to be thorough in scholastic work and still hold to the old, orthodox religious position of our fathers.

We believe that properly-trained Christian young men and women are character-prepared for whatever emergencies they may meet in life—whether those emergencies are prosperity or adversity, peace or war. Even before the second World War when many university and college graduates were "out of work," all graduates of Bob Jones College had good positions and were leaders in their chosen fields.

While a number of our students are going into the ministry, or to mission fields, or into some other form of Christian work, a great many of them are planning to be lawyers, doctors, teachers, business executives, etc.

Bob Jones College offers four years of work leading to degrees of Bachelor of Arts and Bachelor of Science. Voice, piano, pipe organ, violin, art, and speech are offered without additional cost above regular academic tuition.

GENERAL INFORMATION

In studying the courses outlined in this catalogue, you will note that a student may have as many hours in his minor, which is required, as he has in his major. This arrangement enables a student to receive a degree from Bob Jones College and then to enter a graduate school and receive his Master of Arts degree in the minor which he had in our institution.

A student may have a minor in English, history, or foreign language.

We believe that, because we limit our student body and because of the intensely Christian atmosphere of our institution, we are in a better position to do the work in the fields that we cover than any other institution in the country.

Each student in our college is required to take Bible every year. This applies not only to college students but also to high school students and School of Business students as well. To every student in the college, the high school, and the School of Business, we offer voice, piano, violin, pipe organ, art, and speech without extra cost, except a small fee for the use of the practice piano or organ. We put much emphasis on public speaking for we do not believe that a man or woman is really educated until he or she is able to stand on the platform of any auditorium and talk with ease to an audience.

Our college has the reputation of being strict; but our student body, we believe, is the most contented group of students on the American continent. The rules and regulations of the institution are made by a committee of the faculty and the students, and can be changed only by a vote of these

two groups. The rules and regulations are reasonable and necessary.

At Bob Jones College, religion is the natural thing. It is not stereotyped, strained, or "overly-pious." It is simple and unaffected. Every class is opened with prayer, and our social gatherings blend easily and naturally into "a little prayer before we go." We believe in a clean social life. We encourage properly chaperoned parties. In all our work and play, in personal life and social relations, we seek to be loyal to the Lord Jesus Christ.

In connection with our college we have an academy offering four years of accredited work. The boys in the academy under eighteen years of age are under special supervision.

As we limit our attendance, every student in our institution receives personal and constant attention. Any student may go for advice or assistance to any member of the faculty at any time.

Parents may send their sons and daughters to Bob Jones College and go to sleep at night in perfect peace, knowing that their children are safe physically, mentally, and spiritually.

We shall be glad to give detailed information to any parent or to any prospective student.

Remember, whatever educational problem a student may have, Bob Jones College is in position to solve that problem, at least through the sophomore year. In most cases the college can solve a student's problem beyond the sophomore year.

BUILDINGS AND EQUIPMENT

Located on a beautiful campus in the heart of the residential district of Cleveland, the physical plant of Bob Jones College combines beauty and utility.

Women's Dormitories The women's dormitories are brick buildings, well ventilated, and well lighted. Beautiful parlors, social hall, and chapel are on the ground floor. All bedrooms have hot and cold running water, and a number of the rooms have connecting baths.

Men's Dormitories There are two new brick dormitories for men. These buildings are arranged for comfort and convenience. Each room has hot and cold running water, and adequate closet space.

Nell Sunday Hall This new dormitory contains rooms and apartments for faculty members, married students, and guests. Modern in every respect, it is identical in outside appearance to Cosmopolitan Hall. On the ground floor are located science laboratories, the home economics department, and lecture rooms.

The Dining Hall The dining hall is modern in every respect, spacious and cheerful, and the kitchen, electrically equipped, is one of the most modern in the South. In order that the students may make pleasant and varied contacts at meals, their place assignments at the small tables in the dining hall are frequently changed. Private dining halls are available for special parties.

Mack Memorial Library The magnificent new John Sephus Mack Memorial Library, dedicated in June, 1941, is one of the most efficient, beautifully furnished college libraries in the state of Tennessee. In addition to the college library, the building houses a special collection of phonograph records, and also contains the business and executive offices of the college.

Academic Library The academic building, where most of the class rooms are located, is an attractive two-story brick building. Other class rooms are on the ground floor of Cosmopolitan Hall and Nell Sunday Hall.

Margaret Mack Auditorium This new building, which was dedicated on Easter Sunday, 1936, is one of the most up-to-date auditoriums in the South. Here are located most of the studios of the Speech Department, and also the Voice recording laboratory, Speech clinic, and costume studios.

Music Building The attractive studios and class rooms of the Music Department are situated in the music building on the north corner of the campus.

Gymnasium Bob Jones College has one of the finest gymnasiums in the Southeast, well supplied with locker rooms, showers, etc.

Science Laboratories The college has new, well-equipped scientific laboratories and facilities for home economics.

College Store One of the popular spots on the campus is Little Moby's Corner, where are located the snack shop, the soda fountain, the book store, the post office, and the laundry and dry cleaning service. A new addition to the fine plant of Bob Jones College, the store is modernistic and collegiate in its appointments and decorations, and is beautifully equipped.

What Students Should Furnish All students, excepting those residing with their parents or close relatives in Cleveland, are expected to live in the college dormitories. Students must supply their own bed linen, blankets, pillows, towels, etc. Boys occupy single beds. There are both single and double beds in the girls' dormitory. Students may bring any musical instruments which they play. As tennis and swimming are among the most popular sports, tennis rackets may be used to advantage.

PHYSICAL CARE

Health Service Every dormitory student of Bob Jones College has medical service included in his fees. A Christian physician is available for the students at certain definite office hours. In case of an emergency, he may be called any hour of the day or night. A trained nurse is resident in the college dormitory to look after the physical welfare of the women students. Cleveland has two hospitals with trained staffs of physicians and attendants.

Physical Education For three years all students are required to take regular classes in physical education unless excused by a certificate from a physician. Each class meets an hour a day, three days each week. Instruction is given in marching, tactics, tumbling, games, gymnastics, health, relays, and a variety of sports—both individual and team—some of which are soccer, volley ball, basket ball, baseball, track, archery, swimming, ping-pong, shuffleboard, horse-shoes, and tennis. Opportunity for horseback riding is provided by a private academy which offers special rates to the college. Uniform "gym" suits must be purchased by each student. The college store sells the required suits at a minimum cost of approximately \$2.00. Since standard uniforms

are required it is suggested students should wait until arrival at the college to purchase gymnasium uniforms.

A program of intramural sports is provided for both men and women students. Competition is offered in many sports. By providing a sequence of athletic games, the intramural division aside from our regular class work, maintains the finest form of diversion and wholesome recreation throughout the school year. Effort is made to reach every student in the college with the objective of creating a liking for a sport that will "carry over" from his college days into his later life. The grouping of teams makes possible a friendly form of rivalry which possesses many inherent social values as well as contributions to school spirit.

RELIGIOUS SERVICES

Sunday School Sunday school is held on the campus each Sunday. At the opening and closing exercises, all the various religious denominations meet together. A general superintendent, elected by the entire Sunday school, presides. For the lesson periods, the various denominational classes retire to separate rooms where they are taught by teachers of their own choice.

Sunday Morning Worship The Sunday morning worship is a regular feature of the college religious program. Every student is required to attend the Sunday morning worship service except young ministers who are away conducting services. There is a regular choir which presents special music. The message is brought by the president, some minister who is a member of the faculty, or a visiting clergyman.

Vespers The four o'clock Sunday vesper service is probably the best known of all the religious services of Bob Jones College. It presents members of the faculty and students of the Departments of Speech and Music in a sacred program. Occasionally, a religious drama is presented by the Speech Department. These services are both devotional and cultural, and attract many visitors.

Young People's Societies The various denominational groups—Christian Endeavor, B. S. U., Epworth League, etc.—hold their regular meetings each Sunday afternoon following the vesper service.

Sunday Evening Worship Students are encouraged to attend Sunday evening worship at the church of their own denomination in Cleveland.

Chapel Services One of the most interesting features of Bob Jones College is the forty-five minutes chapel service held every morning from Monday through Saturday. These services are a source of great inspiration to the students. Five days a week the chapel message is brought by the president when he is on the campus, and in his absence by selected speakers. On Monday the student body conducts the chapel program. Attendance is compulsory at all chapel services.

STUDENT ORGANIZATIONS

Literary Societies There are no fraternities or sororities on the Bob Jones College campus, but there are eight flourishing literary societies. Every student is eligible for membership in one of these groups. The Sigma Lambda Delta, Sigma Kappa Rho, Chi Sigma Phi, and Tri Sigma are for the girls; the Pi Gamma Delta, William Jennings Bryan, Chi Delta Theta, and Phi Beta Chi societies are for the boys.

Pan Hellenic Council The Pan Hellenic Council is composed of the president and one representative of each of the literary societies. The purpose of the Council is to guide and control the activities of the literary societies.

The Life Service Band The Life Service Band is an organization of students who have volunteered for definite Christian service. It seeks to train and encourage its members to become efficient in personal evangelism.

The Student Foreign Missions Fellowship The Student Foreign Missions Fellowship is composed of those students who have been definitely called to the foreign mission field. The local group is identified with other similar groups in orthodox Christian colleges. The objective of the group is to stimulate missionary vision and zeal on the campus.

The Ministerial Association The Ministerial Association is a band of students who have been called into the ministry. The association aims to promote in every way possible the work of the kingdom of God.

Denominational Organizations The various religious denominations have their own young people's societies and Sunday school classes. Students are urged to attend the meetings of the denominational group with which they have been affiliated at home.

The Choral Club The Choral Club consists of students carefully selected for their musical talent. The best choral music, accompanied and unaccompanied, is studied. The club appears in several formal concerts during the year, often with outstanding guest soloists.

Orchestra The college symphony maintains high standards of performance and provides excellent instrumental experience for students. Membership is limited only in that the balance and proficiency of the ensemble be maintained. This orchestra gives numbers at vesper services, at recitals, and on various other programs during the school year.

Ensembles Students are given the opportunity to participate in vocal, string, and brass ensembles which appear on vesper services and various other programs through the school year.

The Classic Players The Classic Players are possibly the outstanding college Shakespeare repertoire group of the world. Membership is open to students who show talent or ability in public try-outs.

Intercollegiate Debates Any student is eligible to try for the intercollegiate debate teams which engage in debates with other colleges and universities on various occasions during the year.

SPECIAL ADVANTAGES

Bible Conference The annual Spring Bible Conference is one of the outstanding features of the college year. Running for eight days, the Conference brings to the campus America's outstanding orthodox Bible teachers, pastors, and evangelists. Among the speakers of recent years have been Dr. H. A. Ironside, Dr. George McNeely, Dr. Robert G. Lee, Dr. Louis S. Bauman, Dr. James McGinlay, Dr. Roy Brown, Dr. Vance Havner, and Dr. Bob Shuler. All regular academic work is suspended for the Bible Conference which takes the place of a spring vacation.

Artist Series and Recitals The students of Bob Jones College have the opportunity of hearing, in the course of the

year, a number of outstanding artists—musicians and lecturers—who are presented on the Artist and Celebrity Series. In addition, there are recitals by members of the faculty of the Departments of Speech and Music which are also included in the Artist Series. The Student Activity fee provides each student with a season ticket.

Pre-Christmas Festival A group of special attractions and outstanding artists is presented during the Pre-Christmas Festival week immediately preceding the Christmas holidays. Admission for the students is taken care of from the Student Activity fee paid at the beginning of the semester.

Student Recitals Recitals are given monthly by the students of the Music and Speech Departments who thereby have an opportunity of appearing in public. Attendance at these recitals is compulsory for all students of the Music and Speech Departments. Students majoring in Music or Speech are required to give a recital during their senior year.

Radio Talented students have an opportunity for radio appearances on the college broadcasts.

Debates The students' literary societies sponsor inter-society debates each year. Participants are selected by the students in the societies. The final debate is one of the chief events of the commencement exercises each year.

Contests Various music and speech contests are held at commencement and medals are awarded to the winners.

PUBLICATIONS

"The Fellowship News" is a paper published weekly at the college. It is the official publication of the international organization of Young People's Fellowship Clubs and the Gospel Fellowship Association.

"The Vintage" is the college annual, published by the students.

EXPENSES

The total cost for room, board, and tuition for the nine months amounts to \$475.00. In addition, there is a small rental fee for the use of a practice piano or organ and a Student Activity fee of \$5.00 a semester. These expenses, itemized, are as follows:

Tuition, library, and laboratory fees, a semester	\$100.00
Room and board, a semester	137.50

All candidates for admission to the college must give satisfactory evidence of good character, and all students transferring from other schools must present a statement of honorable dismissal.

Admission to Freshman Class

Graduates of accredited high schools will be admitted to the college upon receipt of a properly certified statement from the principal of the high school showing that at least 15 units of acceptable work have been completed. (A unit represents 5 periods of at least 45 minutes each week for 36 weeks.)

This statement should be forwarded directly from the principal to the dean before the opening of school. Blanks for this purpose will be furnished by the college.

Candidates should present at least—

- 3 units of English,
- 1 unit of algebra,

- 1 unit of history, and
- 1 unit of laboratory science.

Not more than 3 units in vocational subjects will be accepted.

Students who do not present 2 units in a foreign language will be required to complete 18 semester hours of a foreign language in the college instead of 12 semester hours in order to satisfy the foreign language requirement. The minimum number of units that will be accepted for entrance in any one foreign language is 2.

Students who present 15 units but who are deficient in some specified unit will be admitted, but the deficiency must be removed before the beginning of the second year. Students who meet the entrance requirements, but are not prepared to do work in certain subjects they wish to pursue, may take preparatory courses in the high school.

Candidates who are graduates of unaccredited high schools and mature students whose work has been irregular, will be given general tests at the beginning of school, and upon recommendation of the Scholarship Committee will be enrolled and placed on probation for one semester. If such students meet the educational requirements of the college during this time, they may be allowed to continue their work. All entrance requirements must be met before such students can become candidates for degrees.

Admission to Advanced Standing

Applicants for advanced standing should have a transcript of their high school and college credits with a statement of honorable dismissal from the registrar of the last school attended sent directly to the dean of Bob Jones College. This should be sent as soon as possible before the opening of the school year.

Schedule of Work

Sixteen hours of class work a semester constitute a normal load for a student. Students who have work scholarships will reduce their program of studies accordingly. Upper class students with an average grade of B will be permitted upon recommendation of the Scholarship Committee to register for a limited number of additional hours.

Change of Schedule

No student may drop a course, begin a new course, or make any change in his schedule after registration is completed without the permission of the dean. After the first two weeks a student who makes a change in his schedule will be required to pay a fee of \$1.00.

DEGREES

The college grants three degrees:

1. The Bachelor of Arts degree with a major in Music, Speech, or Religion.
2. The Bachelor of Science degree in Elementary Education.
3. The Master of Arts degree in Religion.

Requirements for a Bachelor of Arts Degree

The work of the Lower Division (freshman and sophomore years) is general in character, fitting the needs of any student, including those of the pre-medical and pre-law students, prospective teachers, ministers, and students planning to enter other professional schools. The regular courses offered in most liberal arts colleges are given.

We do not advise a student who is interested primarily in engineering, medicine, or other technical subjects, to remain in Bob Jones College beyond the sophomore year.

The work of the Upper Division is specialized in character. It is concentrated around three major fields: Music Speech, and Religion. Students are admitted to the Upper Division when they have completed the work of the Lower Division, or its equivalent, with an average grade of C. Each student selects music, speech, or religion in which to do his major work, and English, history, or a foreign language in which to do his minor work. His major professor will act as an adviser and will assist him in the selection of his minor subject.

On receiving the bachelor's degree at Bob Jones College, the student is qualified to enter a graduate institution and study for the master's degree in either his major or minor subject.

Residence At least one year in residence at the college, including the last semester of the senior year, is required. If a student is in residence only one year, a full load of work must be carried and as many quality points earned as hours taken.

Hours and Quality Points At least 130 semester hours and 130 quality points must be earned. Two-thirds of the work during the junior and senior years must be taken in courses numbered 300 and 400.

Comprehensive Examinations and Recitals During the semester preceding graduation, a candidate for a degree with a major in religion is required to take a comprehensive examination covering his major field of study. A candidate for a degree with a major in speech or music is required to give a public recital during the senior year. Before presenting their graduate recitals, all music and speech majors are required to take Sp. 315, Audience Control.

Students who complete the freshman and sophomore requirements for the Bachelor of Science degree are eligible for a Tennessee elementary certificate.

Many graduates of the college go each year to graduate institutions for further work leading to master's and doctor's degrees. This graduate work may be taken in the major or minor subject pursued by the student in the college. The student should have in mind by the end of his junior year the type of graduate work he wishes to do, and, if possible, he should select the institution in which he plans to study. This will enable him to plan his work during his senior year in accordance with the requirements of the graduate school. A student will not be recommended for graduate work unless he makes an average of B in both major and minor subjects.

A student who plans to enter a medical school, law school, or some other professional school should consult the requirements of the particular professional school he has selected. The college administration and faculty will be glad to furnish information which will assist the student in planning his work in accordance with the entrance requirements of the professional school he wishes to enter.

Requirements for a Master of Arts Degree

See "Graduate School of Religion," page 69.

DEPARTMENTS OF INSTRUCTION

The numbers under Courses of Instruction relate to the year, the semester, and the course. For example, En. 321 means English given primarily for third year students (juniors), the second semester, and the first course. Re. 211 means sophomore Bible, the first semester, and first course. Courses numbered from 100 through 200 are for students in the Lower Division, and courses numbered from 300 through 400 are for students in the Upper Division.

Credit is given in terms of semester hours, a semester hour being defined as 18 hours of class work or 36 hours of laboratory work. Therefore, a class which meets for class work 3 hours a week for a semester will ordinarily give 3 semester hours of credit. A class which meets for class work 3 hours a week and for laboratory work 2 hours a week will give 4 semester hours credit.

The history and development of architecture, sculpture, and painting in prehistoric, early Egyptian, Assyrian, Greek, Roman, Classic, Medieval Romanesque, Gothic, Renaissance, post-Renaissance, and modern times is studied, with the influence of art upon contemporary styles. STUDIO ART

Classes in studio art are maintained primarily to provide a groundwork of sound drawing, solid painting, and the expressive use of color. The method of instruction is individual criticism of class work. The purpose of this training is to develop the student's natural abilities, to enable him to acquire technique, and to stimulate his sense of beauty. In order to receive credit for courses in studio art, Ar. 111-21 must be taken previously or simultaneously.

Ar. 112—FIRST YEAR STUDIO ART

Drawing: The ability to represent figures and objects convincingly and expressively is of first importance, regardless of the particular field of art to be followed later.

Cast drawing: Working in monochrome (generally charcoal) from the plaster cast, with unchanging light, provides the beginner the opportunity of grasping the problems of light and shade.

Still life drawing: The problem of texture and perspective is added to that of light and shade modeling.

Painting: Still life in oil. In addition to the study of color values, mixing of pigments and the handling of paint and brush, the student is encouraged toward individual expression.

Landscape sketching and composition: Pencil and water color. The abundance of good sketching material and the mild climate of Tennessee are both conducive to the development of this phase of art training. No prerequisite.

First semester, three hours.

Ar. 122—FIRST YEAR STUDIO ART

A continuation of Ar. 112.
Second semester, three hours.

Ar. 212—SECOND YEAR STUDIO ART

GRADUATE SCHOOL OF RELIGION

On account of its splendid library facilities, and particularly its Library of Religion, Bob Jones College offers opportunities for graduate work and research in the field of religion. For students preparing to do full-time Christian work or further theological study, a graduate program of study may be pursued leading to the degree of Master of Arts in Religion with emphasis on Christian education or theology.

A bachelor's degree from a recognized college is required for admission to graduate standing. Those who have a bachelor's degree but whose undergraduate preparation is inadequate in the theological field are required to take such courses in undergraduate work as will enable them to do regular graduate study. Undergraduate preparation must be of such quality as to give evidence of ability to pursue with profit and success graduate study.

At least one semester of acceptable graduate study is required before a student may become a candidate for the degree of Master of Arts. A high degree of mastery and achievement must be attained in work offered for graduate credit; at least a B average. The Master of Arts degree is awarded upon the completion of a minimum of thirty semester hours of graduate work and an acceptable thesis.

In lieu of the thesis, a Research and Reading Seminar may be pursued. This Seminar will consist of intensive research in some field coupled with wide reading in order to integrate and enrich the courses of graduate study offered. At least the equivalent of six semester hours of work will be required.

Any courses on the 300 or 400 levels included in the program of a graduate student require work in addition to that done by undergraduates. The Graduate Committee reserves the right to require any additional work or courses needed to round out the candidate's program of study. The candidate for the Master of Arts degree must have a reading knowledge of a foreign language. Nine months work (36 weeks) in

residence at Bob Jones College is required for the Master of Arts degree.

Work on the graduate level will be conducted in the form of seminars which require research, reports, discussions, and wide reading.

The graduate student must submit a consistent program of study worked out under the guidance of the Graduate Committee. Work offered to fulfill the requirements for the degree of Master of Arts may be selected from the following fields and courses:

SCHOOL OF BUSINESS

Mr. Edwards, Mr. Stenholm, Mr. Narramore

Many young people, because of their financial condition, do not see how it is possible for them to complete a four-year college course, but they would like the privilege of being in the atmosphere of a Christian college for at least one year. This privilege is now offered to such young people. Students may enroll in Bob Jones College and complete in nine months a course in bookkeeping, shorthand, typewriting and related subjects, and at the end of the year may receive a certificate in these subjects.

Each student enrolled in the School of Business is required to take Bible in the Bible Department of Bob Jones College

and, in addition, may take speech, music, or standard college subjects.

After completing the business course and the required college work which is given in connection with the business course, the student may enter, if he desires, the regular Liberal Arts College and may receive approximately a year's credit for the work done in the School of Business, provided the college entrance requirements have been met.

This arrangement makes it possible for many young people to get at least a start in college work. Usually a student who can go to college one year finds it possible to continue his education. However, if after one year in the School of Business a student is not in position to continue college work, he is equipped to fill a commercial position and has the cultural advantage of a business course taken in the environment of a Christian college.

The expenses for the School of Business are the same as in the regular college. See page 20.

Grading System

The following grading system is used:

A	Superior
B	Above average
C	Average
D	Passing grade
E	Condition

Students who make on E, I, or X are required to make up or complete the work during the following 9 weeks period. If this is not done, the grade is changed to an F and the course must be repeated. A small fee is charged for special examinations.

All School of Business students will be under the same rules and regulations as the students in the Liberal Arts College.

CERTIFICATES

All applicants for certificates must be recommended by the head of the School of Business and by the dean of the college. Either shorthand, bookkeeping, or typewriting must be passed before a certificate is given.

ACADEMY

Miss Lee, Mrs. Allen, Mrs. Jones, Miss Killian, Mr. Warwick, Mrs. Stenholm

Purpose

Many parents realize the importance of having their sons and daughters in a Christian atmosphere during their high school years. There is no more critical time in the life of a boy or girl than the years spent in the high school. The purpose of the academy is to offer four years of high school training in an environment that is Christian and cultural. The academy students have the opportunity of social contact with the college students. They also have the advantage of instruction by well-trained Christian teachers.

Rating

The academy is a four-year accredited high school.

Admission

Students are admitted to the academy upon the completion of standard eighth grade work (or junior 2 class work.) The applicant should present an official statement from the principal of the school which he formerly attended that he is prepared for the ninth grade (or junior 3) work. If the student wishes to be admitted to any high school class beyond that of the ninth grade (or junior 3), he should present a transcript showing the official record of all high school work previously carried. Not more than 4 units of credits will be accepted for admittance to the tenth grade. Students transferring from an unaccredited high school will be admitted by examination.
